Chile

A year in Chile: *An unforgettable experience*

YOUTH FOR UNDERSTANDING
Chile

“Hello, my name is Morgane and I am from the Netherlands.

I went to Chile when I was 17 in 2018 and stayed in the city of Talca for a year with an amazing host family.

Having lived in Chile as an exchange student was the best thing that ever happened to me, I created a very close relationship with my host family who accepted me very quickly into their home and treated me as their own daughter.

During this exchange year I made long lasting friendships, discovered many parts of Chile from north to south, got to know new traditions, tried new food and of course learned a new language.

I learned to adapt quickly to things that I was not used to, I became very much more responsible, more independent and way more confident than I was before.

It was an unforgettable year with a lot of beautiful memories. I cannot wait to go back and do it all over again”.
